## Skills

- Flutter | Dart | JavaScript | C++ | C | MongoDB | MySQL | Node | Express | React | Tailwind CSS | Redux | Next.js | PHP
- Figma | Wordpress | Cpanel | Git | Android Studio | Unit Testing | OOP | Django
- Frontend | Backend | Full-Stack | English, Nepali – *All professional proficiency or above*

## Experience

**Software Developer** Pointzero Kathmandu, Nepal 08/2022 - Present

- Led the design and development of multiple enterprise-level microservice applications for the Commerce Experience Group, driving significant revenue using the latest technologies such as Flutter, React.js, Node.js, Tailwind CSS, Express.js, and MongoDB.
- Designed and implemented scalable APIs and background workers for managing proprietary licenses, serving thousands of license requests daily using Node.js, Express.js, and MongoDB.
- Collaborated with cross-functional teams to define and implement new features, ensuring seamless integration with existing systems and enhancing overall performance and user experience.
- Optimized front-end components using React.js and Tailwind CSS to create highly responsive and visually appealing user interfaces.
- Implemented real-time data processing and analytics features using Node.js and MongoDB, enabling faster decision-making and improved user insights.

**Frontend Web Developer** epass Kathmandu, Nepal 01/2024 - 07/2024

- Developed and maintained responsive web applications using Next.js, React.js, and Tailwind CSS, ensuring high performance and scalability.
- Optimized front-end performance by implementing best practices and leveraging tools like Next.js for server-side rendering and React.js for efficient component management.
- Implemented state management using Redux and Context API to ensure consistent and predictable application behavior.
- Ensured cross-browser compatibility and responsiveness across various devices by conducting thorough testing and debugging.

**Freelancer** Fiveer 06/2020 - Present

- Developed and delivered various mobile apps and websites for clients using Flutter, React.js, Node.js, and MongoDB, ensuring robust and scalable solutions.
- Created cross-platform mobile applications with Flutter, providing seamless performance and a native-like user experience on both Android and iOS devices.
- Designed and implemented RESTful APIs using Node.js and Express.js to support client applications, ensuring efficient data flow and integration.
- Collaborated closely with clients to understand their requirements and provide customized solutions, ensuring timely project delivery and client satisfaction.

**Software Developer, Intern** Pointzero Kathmandu, Nepal 05/2022 - 08/2022

- Assisted in developing and maintaining web and mobile applications using React.js and Flutter, contributing to various stages of the development lifecycle.

## Education

**BSc (Hons) Computer Systems Engineering (IT)** ISMT Tinkune, Kathmandu, Nepal 20023 - till

- Major in Computer Engineering

## Projects

- Bidesh Online App—Consultancy App:** Developed the frontend using Flutter for a consultancy app that provides users with expert advice and services for overseas opportunities. Link to [Playstore](#) (2023)
- Free Risthey Wala:** Built the frontend using flutter and node.js for backend for a dating app. (2024).
- Topik Exam—An Exam Taking Website:** Developed the frontend using React.js and Tailwind CSS, incorporating Redux Toolkit for efficient state management in an online exam platform.. Link to [Website](#) (2024).
